24.00R35	*2	E4

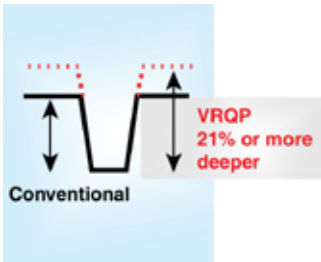

BRIDGESTONE OFF-THE-ROAD TIRES

VRQP V-Steel Rock Quarry Premium

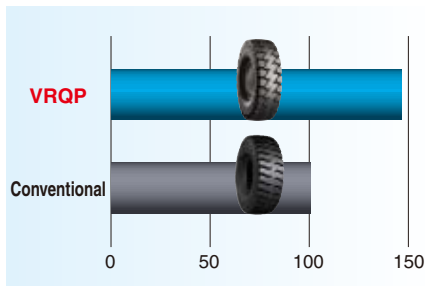

Specially developed for earthmovers working in quarries and other tough situations, VRQP off-the-road tires realize an excellent combination of long life, high cut resistance and powerful traction.

Longer life, more economical
Extra-thick treads for extra-long tire life and greatly reduced tire replacement costs.

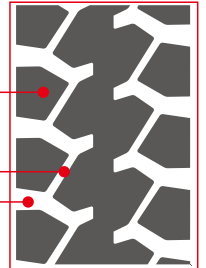

Groove depth

Estimated worn-out life

Wider grooves for higher traction
Fewer, larger lugs and added slanted grooves enhance grip and stability.

Main groove

Deep main groove, optimum lug angle and tread design assure longer life.

Shallow sub groove

A shallow sub groove added to the lug improves traction and ground contact of treads in lateral direction.

Greater lug stiffness

Fewer (28) and wider pitches for greater lug stiffness and tread-to-ground contact.
