

# Firestone Forestry Special Tyres

**BRIDGESTONE**  
BRIDGESTONE EARTHMOVER TYRES

- 1 Flatter crown for more even wear
- 2 Deeper lugs for longer tread life
- 3 More lugs for better traction
- 4 23-degree tread bars are 25% deeper at centre
- 5 Heavy-duty bead and rim protector helps keep out debris
- 6 Tread bars 42% thicker than agricultural tyres

# Firestone Forestry Specials – designed, built and tested for tough conditions.

Firestone Forestry Special tyres are built specifically for logging service under the world's toughest conditions. Manufactured with patented compounds such as CRC® (Cut Resistant Compound), they offer unsurpassed strength and durability.

Purpose-designed to meet the demands of higher horsepower machines and heavier loads, with optimum angled tread bars 25% deeper in the centre, and up to 42% thicker than agricultural tyres, to protect against cuts, snags and tears.

Logging is no place for amateurs or imitators, not for the people who work there and not for the tyres they depend on. Rely on Firestone brand forestry tyres to deliver the performance and value you need when it matters most.

## Forestry Special CRC® LS-2

Designed and built specifically for logging service with CRC® to meet the demands of higher horsepower machines and heavier loads.

## Forestry Special CRC® Severe Service

Tubeless design for reduced expense and downtime, with a 20% stronger sidewall and 20% stronger base gauge for better puncture resistance.

### Forestry Special CRC® LS-2

Metric Size (Conventional Tyre Size)	Article Number	Ply Rating	Rim Width	Overall Width	Overall Diameter	Bar Height (in)?	Max Load & Inflation (lbs. @ psi) @5mph ?	Weight (lbs.)
30.5L-32	371-538	20	27.00	30.5	74.0	2.20	18500 @ 35	961
DH35.5LB32	371-572	20	31.00	35.5	79.2	2.53	22500 @ 30	1238
